## About Patanjali Research Foundation

Patanjali Research Foundation (PRF) is committed to creating a better society and country, with Nationalism, Ayurveda, and Yoga as its main pillars. PRF is ready to assist individuals by bringing nature's blessings into their life, raising the world's pride and glory. PRF is ready to write a new success story for the world with its unwavering commitment, scientific framework, effective strategy and realism. Ayurveda is one of the oldest Indian medicinal systems. Ayurveda is a holistic approach to health and treatment based on nature. PRF's mission is to make India an ideal platform for the development and promotion of Ayurveda, serving as a role model for the rest of the globe. The scientists at PRF have scientifically validated a vast number of formulations.

## About Patanjali Organic Research Institute

The Patanjali Organic Research Institute (PORI) is a premier institution dedicated to advancing sustainable agricultural practices through research and innovation. Committed to organic farming and environmental conservation, PORI focuses on enhancing soil health, promoting eco-friendly farming techniques, and providing practical solutions for the agricultural community. The institute integrates traditional knowledge with modern science to achieve holistic and sustainable agricultural growth.

## About University of Patanjali

The University of Patanjali is a renowned institution dedicated to promoting the teachings and principles of yoga, Ayurveda, and Vedic studies. Established by Swami Ramdev, a prominent yoga guru, and Acharya Balkrishna, a respected Ayurveda expert, the university offers a wide range of courses and programs aimed at fostering holistic wellbeing and spiritual growth. With state-of-the-art facilities and a team of highly qualified educators, the University of Patanjali provides students with a unique opportunity to immerse themselves in ancient wisdom and modern knowledge. As a leading center of learning in the field of traditional Indian sciences, the university is committed to nurturing a new generation of scholars and practitioners who embody the values of health, harmony, and self-realization.

## About the Conference:

The two-day National Conference on Swasth Dhara - Soil Health Testing and Management for Sustainable Cultivation of Quality Botanicals, scheduled for 27-28 October 2025, will be held in Haridwar in a hybrid format, featuring both offline and virtual sessions. Sponsored by NABARD, it is jointly organized by the Patanjali Research Foundation, Patanjali Organic Research Institute Pvt. Ltd., the University of Patanjali and RCFC NR-1, NMPB, Ministry of Ayush. The conference will spotlight the essential role of soil health in supporting the sustainable and quality-driven cultivation of medicinal and aromatic plants. This event aims to bring together scientists, researchers, policymakers, and industry stakeholders to deliberate on recent advances in soil testing technologies, best practices in soil management, and the mitigation of threats such as heavy metal accumulation, microplastic pollution, and soil microbiome imbalance. Delegates will benefit from dynamic discussions, exchange of research insights, and collaborative sessions designed to formulate actionable strategies for enhancing soil resilience and botanical crop quality.

## Conference Themes:

- \* Advancements in Soil Testing Technologies.
- \* Soil Contaminants (Micro (nano) plastics, Heavy Metals, Microbial Pathogens).
- \* Technological Advancements in Soil Health Management.
- \* Soil Organic Matter and Soil Microbiome's Impact on the Medicinal Potential of Plants.
- \* Impact of Nanofertilizers and Nanopesticides on Medicinal Plants' Cultivation.
- \* Precision Agriculture.
- \* Organic Farming for Sustainability.
- \* Quality control of Botanicals.
- \* Market linkage of Quality Botanicals.
- \* Farmer-Industry Partnerships for Food Security.
- \* Bio-prospecting Natural Resources for Bioactive(s) and Value-added Products.

## Message from Organizers

Dear delegates, this national conference presents an excellent opportunity to delve into the integral role of soil health testing and management in the sustainable cultivation of quality botanicals. As the demand for medicinal and aromatic plants grows, the need for advanced soil diagnostics, organic practices, and precision agriculture becomes increasingly crucial. The event will address critical themes such as soil contaminants, the role of the soil microbiome in enhancing phytochemical profiles, nanotechnology in plant nutrition, and farmer-industry partnerships. Join us in exploring innovative strategies to ensure safe, sustainable, and high-quality botanical production.
